

Week Report 5

Practice 1

A terminal window titled 'Tilix: ig@ig-VirtualBox: ~' showing a series of commands to create a website directory structure. The commands are: 'mkdir website', 'mkdir website/scripts website/assets', 'touch website/index.html', 'touch website/scripts/script.js', and 'touch website/assets/image.png'. A 'tree website/' command shows the resulting structure: 'website/' containing 'assets' (with 'image.png'), 'index.html', and 'scripts' (with 'script.js'). A summary states '3 directories, 3 files'. Then, 'rm website/assets/image.png website/scripts/script.js' and 'rm -r website/scripts website/assets/' are executed. A second 'tree website/' command shows only 'index.html' remaining. A summary states '1 directory, 1 file'.

```

ig@ig-VirtualBox:~$
```

Practice 2

A terminal window titled 'Tilix: ig@ig-VirtualBox: /usr/share' showing commands to create a directory structure under '~'. The commands are: 'cd /usr/share/', 'mkdir ~/website', 'mkdir -p ~/website/assets/images/small', 'touch ~/website/assets/images/small/logo.png', 'rm ~/website/assets/images/small/logo.png', and 'rm -r ~/website'.

```
